PROFESSIONAL SUMMARY

Flutter Developer with 2+ years of experience in building and deploying **25+ mobile applications** (Google Play & Apple App Store). Skilled in **Dart, Firebase, SQL, Node.js, MongoDB**, and **API integration**, with strong knowledge of Agile methodologies and Git version control. Proficient in delivering scalable, high-performance apps with clean architecture and optimized UI/UX.

SKILLS

- **Programming Languages:** Flutter, Dart, Python, Java, Android (Native), IOS (Swift)
- **Tools & Platforms:** Git, GitHub, Jira, Android Studio, MVC, Agile Methodologies
- **Database:** MySQL, Server Integration, Firebase, Supabase, NodeJS, MongoDB, PHP
- **Integration:** Google Map (Live), Payment (Phonepe, Razor Pay, Cashfree), REST APIs
- **State Management:** GetX, Provider
- **Deployment:** IOS (Appstore), Android (Playstore)

EDUCATIONAL QUALIFICATION

12th Grade in Bio-Maths

Little Flower Higher Secondary School, Salem - **June 2018 to March 2019**

Score: 69%

Bachelor Of Technology (B.Tech.) in Information Technology

Park College of Engineering and Technology, Coimbatore - **July 2019 to July 2023**

CGPA: 8.3 / 10

PROFESSIONAL EXPERIENCE

Application Developer – Nulinz Technology, Salem

February 2024 – Present

- Built and deployed **25+ mobile applications** using Flutter, improving user engagement and reducing page load time by 30%.
- Led a team of **5 Flutter developers**, coordinating tasks, mentoring team members, and ensuring timely project delivery.
- Collaborated with **UI/UX designers** to create component-based, mobile-responsive interfaces with smooth navigation.
- **Integrated REST APIs**, developed secure authentication flows, and implemented real-time data visualization features.
- Optimized app performance and accessibility, achieving **30%+ growth** in client engagement metrics.

PROJECTS (25+ Projects)

Onstru Super – Social Media, E-commerce, and Job Platform

Tech Stack: Flutter, Dart, GetX, Map Integration, Payment Integration (Cashfree), Sensitive Media Check, Notifications.

Features: Architected a cross-platform super app integrating 15+ modules (social media, e-commerce, jobs) with secure payments, advertisements, and chat. Elevated user engagement by **40%** and improved transaction success rate by **95%**.

apps.apple.com/us/app/onstru/id6748594477 (IOS)

Onstru DLR – AI Construction App

Tech Stack: Flutter, Dart, Python, AWS, Face Recognition, ML Kit, OpenCV.

Features: Engineered an AI-powered attendance system using face recognition, enhancing accuracy by **95%**, improving operational efficiency by **40%**, and simplifying workforce monitoring and record-keeping.

Link: play.google.com/store/apps/details?id=com.onstru.dlr (Android)

CogoSmart – Coconut Trading App

Tech Stack: Flutter, Dart, GetX, Payment Integration, Multi Language System, Notifications.

Features: Delivered a trading platform with virtual accounts, multilingual interfaces, and profit/loss tracking. Increased transaction accuracy by **98%** and user retention by **35%**.

Link: play.google.com/store/apps/details?id=com.cogosmart.app (Android)

Magarantham Mart – E-Com Grocery App

Tech Stack: Flutter, Dart, Notifications.

Features: Deployed a gamified e-commerce solution with role-based access, interactive purchasing flows, and secure payment integration. Boosted user retention by **32%** and sales conversions by **28%**.

Rootments – Clothing Store Task Management App

Tech Stack: Flutter, Dart, Notifications.

Features: Delivered a store-specific task tracking solution, raising task completion rates by **35%** and reducing communication gaps by **40%**.

Link: play.google.com/store/apps/details?id=com.rootments.app (Android)
apps.apple.com/in/app/rootments/id6742770148 (IOS)

SiteSync – Construction Task Management App

Tech Stack: Flutter, Dart, Notifications.

Features: Implemented a multi-project construction task manager, reducing project delays by **25%** and improving team coordination.

Link: play.google.com/store/apps/details?id=com.sitesync.app (Android)

Expert Internal – Product Selling and Tracking App

Tech Stack: Flutter, Dart, Notifications, Alarm System, Location Tracking.

Features: Launched an internal product management and tracking solution with real-time alerts, cutting support tickets and boosting order management efficiency by **40%**.
